The Enterprise Risk Network

Bringing together risk professionals from State authorities and healthcare enterprises”

The Enterprise Risk Network (ERN) is a network for risk management professionals in the State sector in Ireland.

Since its launch in 2007, the ERN has proven to be an effective vehicle for the State authorities, healthcare enterprises and the State Claims Agency (SCA) to engage with each other in relation to the key risk management issues impacting State organisations. The Network also provides a knowledge-sharing function whereby individual ERN members can share their knowledge, insights and experience, as well as join in discussions with other organisations in the public sector risk universe.

Annual activities

Two ERN meetings are held annually – the ERN Annual Conference, and the ERN Annual Awards, which recognise the work of State bodies in the area of enterprise risk management.

Regular mailshots are also issued throughout the year to keep members informed about the latest risk management news and developments.

Interested in joining?

Please get in touch with RiskNetwork@ntma.ie to apply to join the ERN.
