The Enterprise Risk Network

Bringing together risk professionals from State authorities and healthcare enterprises”

The **Enterprise Risk Network** is a professional network for risk management professionals in the State sector in Ireland. Since its launch in 2007, the Network has proven to be an effective vehicle for Delegated State Authorities and the SCA to engage with each other in relation to the key enterprise risk management issues impacting State organisations.

The Network also provides a knowledge-sharing function whereby individual members can share learnings, insights and experience, as well as join in discussions with other organisations in the State sector.

Annual activities

Two Network meetings are held annually. Regular mailshots are also issued throughout the year to keep members informed about the latest risk management news and developments.

Interested in joining?

Please get in touch with RiskNetwork@ntma.ie to apply to join the Network.
