Emergency Exit Doors – Monthly

Location:

Month:

/ 201_

Monthly Testing Instructions

- Inspect and operate the emergency exit device.
- Ensure the 'keeper' is free from obstruction.
- Lubricate where required in line with manufacturer's instructions.
- Ensure integrity of the system and that no additional locking devices have been added.
- Record any faults and subsequent actions taken.

| Date | Initial | Faults Found | Action Taken |
|------|-------------------|--------------|--------------|
